# AUTUMN / WINTER

Our cocktail menu at 1820 is based around a simple idea: if a grocer in 1820 were to open a cocktail bar, what would it look like? Well, we think it would highlight the beautiful fresh products that are in season, combined with the exotic herbs and spices found both locally and around the world.

So that is exactly what we have done. A fresh seasonal ingredient in all its glory with a flavour combination using a herb or spice that really compliments or contrasts. Put together with one of our base spirits to create a vibrant, dynamic and responsibly sourced cocktail menu.

Our cocktails are named after the main two flavours used, so feel free to order by the flavour combinations stated.
